VNS INTERNATIONAL,

Our highly trained professionals can take your company to the leading edge with their extended technical knowledge on all aspects of maintenance management systems. We use years of experience to make your company more profitable and offer superior service.

About VNS International, Inc.

VNS is a Hollywood, FL. based provider of global Marine Administration and Planning Solutions to all commercial marine organizations. VNS's MAP solution is comprised of three branches, Marine, Business & Hospitality, covering twenty modules. MAP is designed as an open architecture system written in Java Server Pages (JSP) and Active Server Pages (ASP) that can support NT/UNIX platforms and any relational database, such as Oracle. This unique thin client design provides flexibility and allows access remotely from a ship or from the home office via the Internet, intranet or extranet. VNS provides organizations with complete solutions including consulting, software, and implementation services.
